

Vella Nero

Three gorgeous sisters have made this otherwise unassuming aqua and white space in the CBD one of the top places to get a serious dose of quality caffeine. Certified Rainforest Alliance beans, roasted in-house by Bella (the beautiful beast at the front of the store) and transformed into the Vella Nero Designer Blend make damn near as good a coffee as you'll get anywhere in this town. It's all about the balance – the aroma is rich, concentrated and intoxicating, full of roast hazelnut, cinnamon and clove. The palate doesn't lack for chocolate-laden power, but has a sweet grapefruit flavour to finish, lifting it and invigorating the palate. Excellent, freshly made snacks and smart service round out the package.
